The constituent assembly appointed a number of committees to deal with different tasks of constitution-making. Among all the committees of the constituent assembly, the most important committee was the drafting committee with the task to prepare new constitution for India.

Although, constituent assembly was the landmark in making of the Indian constitution, it was never out of the radar of critics, constituent assembly was criticized on several grounds, like its representative body was not fully elected, It was not a complete sovereign body, It was dominated by congress, time consuming etc.
